ATTEMPTS SUICIDE.

Capt. Van B. Tyler Makes Unsuccessful Attempt At Suicide.—Takes Large Quantity of Laudanum.

Capt. Van B. Tyler, who lives at Fredericktown, made an unsuccessful attempt to take his life yesterday afternoon at 5 o'clock, by taking a large quantity of laudanum. It will be remembered that Capt. Tyler's wife committed suicide some weeks ago by taking carbolic acid. Since that time the husband has frequently threatened to end his life, and the attempt of yesterday was no surprise to those who are acquainted with the circumstances. Immediately after the deadly dose was swallowed Drs. John Shanty and Frank Hamilton arrived and pumped the poison from the unfortunate man's stomach. After Tyler was relieved he expressed himself as being glad he did not die, although he said he was in deep trouble. He said that he loved his wife dearly and that since she had taken her life he had no desire to live. However, he now claims that he will not attempt his life again.

Base-Ball Game.

One of the most interesting local games of the season was played at the High School park last Friday between the Springfield Rocks and the Graded High School teams. It ought to have been an easy victory for the Rocks, but it appears that they were unable to come in contact with Colvin's great "split ball" up to the seventh inning, when the score was tied, each side having made one run. But as error by one of the Rocks proved costly, for their opponents walked off victorious. Following is the score:

	1	2	3	4	5	6	7	8	9
G. H. S.....	0	0	0	0	0	0	1	2	0-5
Rocks.....0	0	0	0	0	0	1	0	0	0-1
Following is the line-up:									
G. H. S.	Position.							Rocks.	
Lambert.....	Catcher.....							Tong	
Colvin.....	Pitcher.....							Robertson	
McElroy.....	First base.....							Graves	
Simms.....	Second base.....							James	
Waters.....	Third base.....							Marks	
Wyckoff.....	Short stop.....							McCabe	
Humes.....	Left field.....							G. Robertson	
Royalty.....	Center field.....							Arnold	
Polin.....	Right field.....							Walters	

NOTES.

The principal features of the game were the twirling of both Colvin and Robertson and the catching of Lambert and Tong.

Marks and Waters were kept busy. Graves and McElroy let nothing get away.

James and Simms held down their positions like old veterans. McCabe and Wyckoff were like brick walls at short, and the outfielders accepted every chance.

A game of baseball played here yesterday afternoon between the Springfield Graded School and the Bardstown High School clubs resulted in a victory for Springfield by a score of 19 to 7. Up to the eighth inning Bardstown had failed to score, but errors on the part of the Springfielders during the eighth inning let in seven runs for the visiting club.

Corporations.

Commonwealth's Attorney R. L. Durham has instituted action in the Washington Circuit Court against the Farmers' Bank of Macville, the Washington County Telephone Company and the Adams Express Company for \$500 each for failure to file with the Secretary of State a statement designating some one on whom process may be served, as provided by 571 of the Kentucky statute.

Dinner.

The ladies of the Christian church at Macville will serve a court day dinner at Springfield Monday, May 22, in Uriah Martin's store room, opposite Wharton & Tapp's livery stable, for benefit of the new Christian church at Macville, Ky.

The Southern Baptist convention at Kansas City has concluded its labors and adjourned.

A Strong Sermon.

It was announced last week that on Sunday night at the Baptist church Rev. Williams would preach especially to the pupils of the Graded School on the subject of "Heart Cultivation." Those who failed to hear him missed a rare treat. He took as his guiding character, Moses, at the time he was commanded by Jehovah to prepare the tablet of stone to receive the commandments, after he had broken the first in his rage. Rev. Williams' descriptive powers are strong, and one could almost see Moses before him toiling away, that the tablet might be made ready. He spoke of ignorance being the cause of so much sin, and by overcoming ignorance a great step was taken toward preparing the heart for God's truth. He encouraged high sentiment in all its phases, and dwelt on the deplorable condition of a soul without it.

EVIDENCE AGAINST

Tobacco Trust Sufficient to Warrant Department of Justice to Make an Investigation Through Federal Grand Jury.

Washington, May 6.—Reports from New York City to the effect that the Federal grand jury in that city has been called upon to deal with one phase of the Tobacco Trust are taken to mean here that evidence has been found which may warrant the Department of Justice to proceed against the Tobacco Trust at some future date. If the Taft investigation succeeds in making out a clear case against the trust, the Attorney General will succeed accordingly.

Investigation of the Tobacco Trust by representatives of the Department of Justice has been going on since December 7, 1904, and that day Attorney General Moody ordered an inquiry into the operations of the American Tobacco Company on a complaint of the Kentucky and Tennessee Planters' Association made in person by its president, Felix Ewing, of Tennessee. The investigation was similar in character to that of the Beef Trust, and injunction and possible criminal proceedings were aimed at.

Yesterday's developments in New York show that sufficient knowledge has been obtained of the doings of the trust to warrant a general investigation, and that is now going on. Attorney General Moody said to-day that he could not depart from his fixed policy not to discuss the proceedings of any case under way. He had not heard from New York that action had been taken against a member of the trust for refusing to give testimony.

When the investigation was begun A. E. Garner, a lawyer, of Springfield, Tenn., was employed by the department to investigate the operations of the American Tobacco Company in the South. Later on Henry W. Taft, a brother of Secretary Taft, was employed by the Attorney General to conduct an investigation in New York, the headquarters of the trust. Mr. Taft has been at work in a quiet way gathering testimony since the beginning of the year.

The specific charge of the Planters' Association was that the American Tobacco Company was maintaining a monopoly in violation of the Sherman anti-trust law. The complaints were not nearly of the same character as those made against the Beef Trust, that the tobacco company made arbitrary prices to producers, and that the latter had no alternative, there being no other market for their goods. It is also maintained that the trust agrees on a price to consumers in violation of the Sherman anti-trust law, and that the American Tobacco Company is a conspiracy in restraint of trade.

Umbrellas Repaired.

I am prepared to re-cover umbrellas at 35c up. Work done on short notice. Don't throw a good frame away. Get my prices on this work, and have it re-covered. Geo. Taylor.

Herbert V. Croker, a son of Richard Croker, of New York, was found dead in a room in a train near Kansas City. Death is believed to have been due to a drug. A negro put Croker on the train at Kansas City and just before the train started the negro sprang off. Croker had been attending the races at Elm Ridge.

Russia's dowager empress exports a powerful influence over the czar and is credited with being an implacable enemy of Germany. She is a daughter of Christian IX, of Denmark and a sister of Queen Alexandra of Great Britain.

....THINKIN' BACK....

JAMES WHITCOMBE RILEY

I've been thinkin' back of late, 'Prin!—And I'm here to state I'm suspicious, it's a sign of age, maybe, and decline of my faculties—and yit I'm not feelin' old at all. Any more than sixty-four! Ain't no young man any more!

Thinkin' back's a thing 'at grows on a feller, I suppose. Older 'I be the gits, I jacked. More he keeps a-thinkin' back! Old as old men git to be. Fixed on what we've left behind—Rehabilitatin'—like Them old times we used to hike Long 'bout Apr 'I tried to pick Out some "warmest" place to go In a swimmin'—Ooh! my-oh!

Wonder now we hadn't died! Cried horse-dash on my hide Jew a-thinkin' how cold them That-ere worter must 'a ben!

Thinkin' back—W'y goodness me! I kin call their names and see Every little tad I played With, er fought, er was afraid Of, and so made him the best Friend I had of all the rest! Thinkin' back, I even hear Them a-callin' high and clear, Up the creek-banks, where they seem Still hid in there—like a dream—And me still a-gantin' on!

The green pathway they have gone! Still they hide, by bend or ford—Still they hide—loft, thank the Lord (Thinkin' back as I have said) I hear laughin' on ahead!

SYCAMORE VALLEY.

Cutworms are doing great damage to corn, tobacco and garden "truck." What looks well, and there is no complaint of the fly or rust this season. We expect a good crop.

Mrs. J. D. Sutherland has been so sick with heart and stomach trouble as to require the services of a physician, but is thought to be better at this time. Rev. Thomas W. Sutherland, quite an able divine, will preach at Love Ridge on the third Saturday night and Sunday, and it is hoped his congregations will be large.

We have had some excellent weather for setting tobacco, but little in that way has been done, as the farmers failed to have the ground in readiness, and there will be a short crop unless more is put out at an early date, for the plants will soon be too large. Dr. J. T. Cammack, the well known and successful veterinary surgeon, of Wardsville, who was here in a professional way, has returned home.

There is some talk of organizing a baseball team in our Valley, and all the boys are anxious to see it a "go." Efforts will be made to secure Ivan Armstrong, who twirled the Hillsboro team to so many victories last year, for the box for our team. We have some skillful ballplayers here, and we hope they will succeed in organizing a club.

Mrs. John Shevamer visited her parents, near Fitzgerald's old tollgate, last week.

Mr. A. F. Settle, who is suffering from a complication of diseases, is no better, and his many friends are fearful as to the chances for his recovery.

Mr. and Mrs. Lee Settle and son visited her parents, Mr. and Mrs. George Kelling, at Pleasant View, Sunday.

All the Masons of this vicinity attended the Masonic supper at Macville Friday night. The crowd was large, and the occasion was much enjoyed. The lodge there is in a flourishing condition.

For the Croaker.

If there should happen to be an individual in our midst who has suffered his imagination to go astray so far as to think he has a grievance against Providence and is ready with his hard-learned story for any who will "lend an ear," and is at the same time spending the few short days of this life in listlessly longing for things unattainable, let him hie to the summit of one of the near-by classic hills on one of these beautiful spring days with which we are blessed and there commune with nature in all her rugged grandeur for a few brief moments, and contemplate the improvements going on around him and the prosperous and happy condition of his town and its people, and if he doesn't change his mind, even if he has nothing else to change, the most natural and logical conclusion would be that his heart is "out of tune" and much too small. He is anything but a true disciple of Dr. Moyer, who says we must "Live out of doors and laugh," but he is courting the services of the insanity expert. Let a little sunshine in.

SUNDAY SCHOOL

Workers Meet in Springfield in Annual Convention and Have a Successful Meeting.—Interesting Papers and Addresses.

The Washington County Sunday School Association met in annual convention here last Saturday. Owing to the rain the convention was not well attended, but the program was carried out notwithstanding this drawback. Secretary E. A. Fox, of the State Sunday School Association, was present and lent his aid in making an interesting meeting. The morning session was consumed in discussing the Sunday school in its various phases. Judge W. E. Sealeman, with his address on "The Superintendent's Part," and H. E. Walter, with his discussion of "The Teacher's Part," supplemented by the remarks of Mr. Fox, made up the program for the morning. Mr. Grigsby was then re-elected president and Mrs. Croake selected as secretary. There being a vacancy in the office of vice president, Mr. W. A. Waters was chosen for that place.

The afternoon session was made doubly interesting by the address of Rev. Williams on the subject of "Soul Winning in the Sunday School." His address was a strong one, and those who failed to hear it missed a rare treat. Rev. Hoskinson read a very interesting and instructive paper on "The Great Teacher," emphasizing the work and methods of the Master in His ministry on earth. Rev. Sutherland delivered an address on "The Parents' Part" to make a good Sunday school, urging the attendance of the parent as well as that of the child. Those who attended the meeting pronounced it one of the best ever held in this city.

Sudden Death.

Mr. Sweeney, who was born and reared at Macville, this county, died very suddenly at Macville, Ky., last Sunday of heart disease, and his remains were brought to Springfield and taken to Macville Monday for interment. Mr. Sweeney was about sixty-six years old, and was unmarried. He was well known in the Macville section, where he had many friends.

NEW ROUTE

To Be Established in Washington County Soon.—Will Start From Springfield and Will Be Known As Route No. 5.

A new rural route—No. 5—leading out of Springfield, will, in all probability, be established within the next two or three months. Postmaster Waters is endeavoring to give to Washington county a complete system of rural free delivery, and the establishment of this new route will be a long step in the direction of completing the system, inasmuch as route No. 2, and the proposed new route will cover the southwestern part of the county, embracing No. 9 voting precinct of Springfield, and the bulk of the Fredericktown precinct. The new route will leave over the Bardstown pike with route No. 2 until the St. Rose and Loretto turnpike is reached; then the Loretto pike, as Gasburg; thence with pike to a school-house near Louis Sanbury's; thence to the old Elizabethtown road, following said road to the St. Rose and Lebanon pike, near T. P. O'Brien's; thence to Springfield, via the Booker pike.

This will necessitate a change in No. 2 as follows: Leaving Springfield, No. 2 will go to Bardstown pike to Fredericktown; thence to the St. Rose and Loretto pike; thence to the Loretto pike, following said pike to Cecilville; thence southeast via St. Rose and Lebanon pike to J. S. Osbourne's; thence to Springfield via Booker pike.

A committee, among whom were Mr. Lloyd Hayden and Postmaster Waters, met Congressman D. H. Smith at Bardstown yesterday and conferred with him in regard to the proposed route. Mr. Smith, after hearing the committee, said that he would at once recommend that route No. 5 be established.

Letter From Missouri.

Darville, Mo., May 7, 1905.—Editor Sun, Springfield, Ky.—Being a reader of your good paper, and not having seen anything from Missouri, I thought I would write you a few lines.

I left my home at Pettitville, Ky., where I was born and raised, in October, 1874, and have been in Missouri ever since. In 1881 I was called to Kentucky by the death of my father, and with that exception, I have never been in my native State since 1874.

I know time has made many changes in Kentucky as well as Missouri, but when I read your paper of such men as Sam Mays, John Howell and Ben and his sons, I know how long it has been since I saw them. I don't wonder at my hair turning gray. And then again I think of Tom Rinehart, Sidney Green, Jacob Kimberlin, G. S. Goode, P. C. W. Peterson, Sam Pipes, Rev. L. R. Lardner and others, and ask myself where are they. Some of them I know have passed over "on the other side."

In your paper I see strange names in my old neighborhood, old people have died and new ones taken their places. But the dearest place on earth to me is Washington County Kentucky! "Absence Makes the Heart Grow Fonder."

In looking over your correspondence, I notice that horses and mules are selling low. I am an auctioneer, and I have never seen stock of all kinds as high here in my life as it is this spring. As an evidence of this fact I quote a few prices received at a recent sale. One mare twelve-years old, \$148.50; 1 horse, eleven years old, \$125.15; 1 yearling colt, \$105; 1 yearling heifer, \$22.50; 1 two-year-old heifer, \$45; 1 cow, \$56; sheep, \$8 per head. Nothing low in Missouri, if he did go republican last November. I am a Bryan Democrat.

I will bring this to a close by hoping that The Sun may spread until its rays brighten every home in Old Washington County.

McCLURE & WELLS.

STRAIGHT TALK

WRITTEN FOR THE SUN BY

MISS ALERT WATCHFULNESS

Clerks.

You, who have to do the shopping for a whole family, did you ever notice the different varieties of clerks you come across? First, there is your zealous clerk; he thinks fuss is impressive. When you enter the store he twitches the desired piece from the shelf and slaps it down on the counter with a whirlwind velocity that would send your hat thru the front door into the street were it not securely fastened by your good half dozen hairpins. You catch your breath and trust that this part of the performance is over. Not at all; he comes again and again, announcing the price per yard, etc. You gasp for breath and stoop to pick up your handkerchief, which he has sent flying to the floor. By this time, if you haven't forgotten how many yards you desired, you have more self-possession and patience than I. Then there is your stupid clerk; he thinks you mean blue, tho' you said green, doesn't know flannel from ribbon, and very strongly impresses you with the idea that he "doesn't go home till morning." Now comes your impatient clerk, who puts his face unnecessarily close to yours, and wants to know how many yards you said you wanted before you have even glanced at the goods. He then leans on his elbows and stares you in the face as if his very soul was exhalting. He's a study. Then there is your inattentive clerk, who makes you wait for an answer while he finishes some discussion with another clerk, or details some grievance, or narrates something apart from business, meanwhile tossing for

your inspection, as one would throw a dog a bone, any piece of goods that comes handiest to occupy your mind until he is ready to wait on you. Then there is your high and mighty clerk. What! Ask him the price of a yard of silk or ribbon? Shade of Daniel Webster, forbid! The idea is sacrilegious. Again, you meet your dandy clerk. Isn't that rich brown necktie killing? Look at that vest! And the way that hair is brushed! And the ring on that little finger! And look, too, at the fit of that suit! Doesn't he consider himself an ornament to that store? Last, not least, there's your sensible, self-respecting, gentlemanly clerk—young or old, married or single, as the case may be—in capable alike of officiousness and inattention, who gives you time silently to look at that which you desire to see, who answers you civilly and respectfully when you speak to him, and sends you off with the desire to make another purchase at that store the very first opportunity. Locate these, if you so desire. I know whereof I speak. Now, as to the female clerks, my pencil refuses to budge against them. I always make it a rule to stand by my own sex in any and every effort to earn their own livelihood innocently and honestly, no matter how many blunders they may make in doing it. Suffice it to say that there are quite as many varieties of female clerks as of the sterner sex. I believe, if I were about to join them, I would be puzzled as to whether to choose a male or a female proprietor. When a man is a brute, he is such a brute! And when one's bread depends entirely upon him, Heaven help the dependent! Now, one could call a woman proprietor a "nasty thing," and then she'd say, "You're another!" and there'd be an end of it; but a man-brute would "know the law"—that's what they always call it—and scare you half to death, if you were not up to such rascality, with what he could say if you raised any racket. I have seen some of the prettiest and most ladylike women employed as clerks; also some so ill-mannered as to pretend not to hear what you ask for, and keep you standing until they have made a very minute inventory of the dry goods on your back. Then, too, I have seen some that looked so utterly worn out, so home-sick and heart-sick, that I have felt tempted to say, "Come, cry it all out on my shoulder." I know what relief we find in tears.

House-Cleaning.

It is actually my firm, unalterable belief that men naturally like dirt—ACTUALLY like it—else why are they cer-

stantly making sarcastic remarks and writing snappy articles about house-cleaning, which is a necessity, but which is, of course, anything but agreeable to we women folks, who are obliged to overlook, if not engage in, this disagreeable duty? Why do they have to fly away and take refuge in some shed or attic to get the dust out of their injured optics? And how disdainfully they speak of those unpoetical implements, brooms and dustpans, and otherwise throwing cold water on hot soapuds! I tell you they LIKE dirt. Now, how do you suppose our houses would look if we waited for them to give the signal for, or even assented to, a house-cleaning? They would look just like their places of business, of course—dingy, with cobwebbed windows, piles of dusty books and papers, rickety chairs, unapproachable washbasins and pitchers, sticky inkstands, and as to the floors—ye gods!

Why Suffer From Rheumatism?

Why suffer from Rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after while the relief became permanent. Mrs. V. H. Leggett, of Yum Yum, Tennessee, U. S. A., writes: "I am a great sufferer from rheumatism all over, from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by C. J. Hayden, drugist.

Accidental Death.

(Harrodsburg Herald.)

Otis Poulter aged twenty-two years, accidentally killed himself Monday afternoon in Taylor Cunningham's wood-lane, near Bondville. In company with William Searcy, aged seventeen, he had gone hunting with a flobert rifle, and the two were on their way home when a squirrel ran up a tree and entered a hollow. Searcy took one side of the tree, leaving Poulter on the opposite side with the gun. Poulter sat down to watch for the appearance of the game. In a few minutes Searcy, who was forty yards away, heard the report of the rifle but thought it had been fired at the squirrel until his companion called: "Come quick! I'm shot!" He hurried to Poulter, who placed his hand over his heart and asked him to go for help. Searcy sat the wounded boy against a tree and started for a colored man who was plowing near by, but had only gone a few yards when he saw Poulter pitch forward, and when he got back to him he found he had expired. The ball entered the left breast and lodged in the heart. Coroner Gibbs held an inquest, and a verdict in accordance with the above was returned. Deceased was a son of the widow Poulter.

The First-Born.

(To Mary Sarah Hamilton, born April 23, 1905.)

First-born of affection,
So sweetly dost thou rest,
Like the little birdling
In its downy nest,
Or a little cherub
On an angel's breast.

Little baby sleeper,
Thy mother's joy thou art;
You have stirred a fountain
In her loving heart;
Dearest little being,
Of her life a part!

See, thy mother heedeth
Every little moan;
Hear, too, a sweet lullaby
In an undertone.
Soothing thus the brief unrest
Of the darling one.

Baby, when your bright eyes
Meet your mother's gaze,
Quickly will she notice
All thy playful ways
With a true devotion,
Such as mothers know.

So, fairly little sleeper
On thy mother's breast,
Nourished and enfolded
In your downy nest,
With her pure affections
Thou art doubly blest!

A POSSE AFTER HIM

William Shigle Shot and Killed Henry Murner, a Farmer.

Owensboro, Ky., May 12.—A posse is scouring the woods with bloodhounds in this county for William Shigle, who killed Henry Murner, the father's farm. Murner was plowing when the man emptied the contents of a shotgun into his body. The men disagreed over some work. The coroner's verdict was murder in the first degree. Much excitement prevails in the neighborhood over the tragedy. The Khen fired two shots at his wife in an effort to end her life. Both bullets went wild, but the woman's face is powder burned. She had recently used for divorce, asking for all money in the sum of \$3,000. Shigle alleges he is heir to \$12,000 from the Ogden estate at Lynchburg, Va., and asks for an attachment on \$2,000 of this bequest.

POSTPONED.

Eibert Hargis and Ed Callahan Released on Bail.

Lexington, Ky., May 15.—Ed Callahan and Eibert Hargis, who were jointly indicted with James Hargis for complicity in the murder of James Cockrill, were released on bail of \$10,000 each. Both returned to Jackson. After bail had been granted the Hargis cases were continued till the September term of court. This gives the state court time to pass on the commonwealth's appeal on the instructions of this court.

WARNER MUST HANG.

Gov. Beckham Has Refused to Interfere in His Case.

Frankfort, Ky., May 12.—Gov. Beckham has declined to interfere with judgment at Louisville sentencing George Warner to hang for assassination of Piusaki Leeds, master engineer of the Louisville & Nashville railroad. Warner's defense was that he had been blacklisted and refused employment. He has attempted suicide. He is to be hanged May 18 next.

DEBUTANTE STAKES.

Beautiful Bess, From Fred Cook's Stable, the Winner.

Louisville, Ky., May 12.—Beautiful Bess, from Fred Cook's stable, won the Debuts stake for 2-year-old 34 lbs. at Churchill Downs. The colt was a heavily-backed even-money favorite, and won easily by three lengths from Ohlyssa. Lazell, backed from 20 to 1 and 1, won the third race. Track heavy.

DROWNED.

They Attempted To Ford a Swollen Stream in a Buggy.

Louisville, Ky., May 15.—The bodies of Edna and Irene Bottorff, of Goshen, Ky., were found in the bed of a tiny stream near their home. During a tremendous downpour of rain Saturday they attempted to ford the stream in a buggy after the water had reached a depth of five or six feet and the vehicle and occupants were swept away.

FROM THE PHILIPPINES.

Two Battalions of Fourth Will Soon Arrive at Ft. Thomas.

Ft. Thomas, Ky., May 11.—Notice has been received by the commandant at Ft. Thomas, saying that two battalions and a band of the Fourth Infantry would sail from the Philippines June 15 and would embark direct to the Kentucky post. The two companies of the Ninth regiment at the fort will go to Ft. Sheridan when the troops from the Orient arrive. With the addition of the two battalions of the Fourth the complement of men at the post will be ten companies, as there are two companies of the 27th now at the post.

Grand Jury's Work.

The grand jury completed its work last Saturday after a two-weeks' session. Forty-one indictments were returned for offenses as follows:

Failure to ring bell and sound whistle, 2; unlawful taking of personal property, 1; carrying concealed deadly weapons, 5; breach of the peace, 5; petit larceny, 2; malicious shooting, 2; liquor to minor, 2; liquor to inebriate, 8; public nuisance, 1; assault and battery, 3; selling cigarette paper without license, 1; perjury, 1; disturbing religious worship, 1; gaming, 5; malicious cutting, 1.

The thirty-first Kentucky Derby was witnessed yesterday by one of the largest crowds ever assembled at Churchill Downs, the attendance being estimated at 25,000. The favorite was won by Agile, owned by Capt. S. S. Brown, the Pittsburgh coal king. There were only three starters, Capt. Jim Williams' colt Ram's Horn winning second place. The race was run over a muddy track and the time was 2:10.

RESCUES WOMAN.

He Had An Excited Passenger on His Wagon Through a Creek.

Newport, Ky., May 13.—With the water sweeping through Phillips creek with the speed of a mill race and the roadbed out of sight, Wm. A. Sprague, who carries the mail between Newport and Grant's Lick, had a frantic struggle with an aged woman who insisted upon jumping out of his wagon in an effort to reach the shore. He had to hold to the dashboard while he stepped into the stream and, putting the woman on his shoulders, he struggled to shore through water up to his chin. The horse balked in the middle of the stream and he had difficulty in keeping the light wagon from being overturned. While he was attempting to pacify his passenger the mail sack was swept from the wagon and went hurtling down stream. He induced a farmer to watch his passenger and went in search of it. He found it lodged against a tree that had been uprooted and had to swim for it. The letters were soaked and it was difficult to decipher some of them.

A CYCLONE VICTIM.

Young Son of W. B. Snook Died of His Injuries.

Louisville, Ky., May 13.—Sydney Snook, chief deputy in the local customs office, received a telegram from his brother, of Snyder, Okla., saying that his four-year-old son, Bryant Snook, had died of injuries received in the cyclone. The telegram states that the rest of the family are alive.

KENTUCKY RED MEN.

They Voted To Establish a Widows' and Orphans' Home.

Frankfort, Ky., May 11.—The great council of Kentucky Improved, Order of Red Men, in session here, voted to establish a widows' and orphans' home. An annual tax of 50 cents was adopted to create the necessary fund. The home will be located by the next annual council. J. H. Cook, of Montgomery, Ala., great guard of the national council, installed the newly elected officers of Kentucky council.

Preacher Favors Cards.

Bellevue, Ky., May 15.—Archdeacon Thomas W. Cooks, rector of St. John P. E. church, this city, announced that he would preach a series of three sermons dealing with card playing, theater going and dancing, and that he would advocate that the young people of his parish practice all three of the amusements.

THE KENTUCKY DERBY.

Agile Was An Easy Winner Over a Slow Track.

Louisville, Ky., May 11.—Moving with a long, striding, effortless stride, Agile, Capt. S. S. Brown's beautiful bay colt, passed under the wire an easy winner over a slow track of the 31st Kentucky Derby. Three and a half lengths behind him came Rams Horn, on whom the hopes of Tennessee and the blue grass horsemen were fixed. Trailing 15 lengths to the rear came Layson, from the stable of T. P. Hayes. With but three starters it was a one horse race. The time for the mile and a quarter was 2:10. Nearly 20,000 people saw the race run. It was the opening day of the spring meeting of the new Louisville Jockey club.

Elder William Bentley Dead.

(Anderson News.)

On April 24, at his home near Wayside, Elder William Bentley, one of the best known ministers of the Christian church in Central Kentucky, passed to his eternal reward, having passed ninety-two years on this earth. For more than half a century the best efforts of his life were given to the service he most loved—that of the ministry, and when he finally was forced by his advancing age and consequent disabilities to retire, it was his proudest hour that no weather had ever been too stormy or night too dark for him to respond to the call of those in need of assistance, counsel or consolation.

PLEASANT GROVE.

(Left From Last Week.)

Mr. Clifton Leachman and Miss Alma Leachman attended the Street Fair at Lebanon.

Mr. H. R. Thompson and wife visited his parents here last Sunday.

Mr. Ed. Duncan and Miss Graham VanAale were in Springfield Sunday.

Mr. Wood Young and wife visited Mr. and Mrs. Hundley West Sunday.

Mr. Howell, of Mackville, bought a horse of Byron Parks for \$80.

Messrs. Bruce Keene and E. J. Brown were in Harrodsburg and Danville last week on business.

Lieut. D. R. Litsey, of Ft. Thomas, Ky., is visiting his parents.

Messrs. Frank Peter and Perry Marks were here Sunday.

Mr. Bruce Keene bought a pair of work mules from Mr. W. S. Gibbs for \$300.

KENTUCKY OIL.

Add Nearly a Quarter Million Barrels To the Production.

Barbourville, Ky., May 15.—The successes of the past week in the Kentucky oil field were confined largely to the Wayne county developments. The W. C. Kennedy Co. landed a fine well on the Bril farm, being No. 1 on that lease.

The Bradford Co. completed the No. 9 on the A. H. Spann and has pronounced it a 25-barrel. The company is drilling Nos. 10 and 11.

Marsh Bros. drilled in No. 5 on the Bell lease. W. H. Emory & Co. completed No. 5 on the Hughes place, both fair producers.

The Wetzel Co. is beginning to drill in a wild cat well some distance from the Keeton farm, the nearest production. If this well results in a producer it will extend the territory in that direction.

The Kimball Co. got a duster on the Keeton farm and is starting another well on the Keeton and one on the R. Bell farm.

The entire production of the Knox field for week is about 225,500 barrels.

She Preferred the Dog.

Newport, Ky., May 6.—Following the leaving of her husband, Ulysses Sherman Dunn, principal of the Latonia Public School and former Superintendent of Schools in Campbell county, on last Saturday his wife, Mrs. Addie Maddox Dunn, to-day filed suit for divorce in the Newport Circuit Court. When Mrs. Dunn left her home last Saturday she wrote a note to her husband, stating she would never return to him. It was the first intimation that his wife intended to leave. Since then he has not been able to locate her, although she is stopping with Cincinnati relatives.

Just couldn't live with him any longer," said Mrs. Dunn when questioned as to the reasons for filing the divorce suit, which comes as a great surprise to all their friends.

"He never took me to any place of amusement in seven years and opposed my going and taking the eleven-year-old boy. He would not go out with me, but when he went for a promenade he took the dog along instead of me. I will never return to him. Seven years is long enough for any woman to stand silent contempt treatment."

"Moonshine" Hogs Sold.

(Kentucky Standard.)

The twenty-six hogs confiscated by the Government in a recent moonshine raid near Balltown were sold last Saturday by Deputy Collector W. H. Hays. Pash & Bealmer bought three sows, weighing 1,460 pounds, for \$48.10. The same party also bought fifteen hogs, weight 2,400 pounds, for \$121. Eight sows were sold to John Edelen for \$28.30. They weighed 465 pounds.

A Strange Customer.

(Anderson News.)

The accommodating ladies of the East Tennessee telephone exchange office were somewhat surprised on last Thursday afternoon when a 200 pound hog came pleasantly strolling up the steps into the exchange. It being impossible for this caller to make known his wants, the genial manager of the exchange gallantly came to the rescue of the young ladies, and bravely bore his hogship down the stairs. On reaching the pavement the hog turned and went into the Good Station drug store, whether for treatment, or on account of the cool, inviting aspect of the place, we were unable to find out. However, in a short time the owner came with a rope and in triumph carried away his too sociably inclined property.

A Big Catch.

(Lafayette County Herald.)

Mr. C. N. McGill and wife and Miss Zula Wortham, of this place, were on a visit to Miss Wortham's father, in Hardin county, last week, and while there were members of a very successful fishing party. In only two hours the three caught 200 pounds of fish, weighing from three to ten pounds, and the entire party landed a thousand pounds in that time. But it was not the ordinary way of fishing that was engaged in. There is a small lake at the place, and it had overflowed and run into Nolin creek. The fish were caught on dry ground, or rather, wet ground, and gathered up like potatoes. Some took pikehooks and loaded them up, and everybody got all that was wanted.

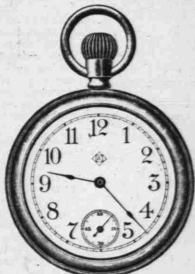

Chamberlain's Cough Remedy the

"I have been using Chamberlain's Cough Remedy, and want to say it is the best cough medicine I have ever taken," says George L. Chubb, a merchant, of Harlan, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house, ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by G. C. Haydon, druggist.

Fire at Evansville, Ind., destroyed property worth \$100,000.

We have a copy of the Sheffield, Ala., Reeper, the first issue of the paper under the new management. Mr. Harry Hansbrough, who was until recently connected with The Sun, is part owner of the paper, he having bought an interest from his brothers, Mordie and Morias Hansbrough. The Reeper is a six-column, eight-page paper, and the first issue is "chock" full of news. Sheffield is one of the best, most progressive little cities in Alabama--just the sort of a town that appreciates a good newspaper. For this reason the Reeper will come with a whoop. It's a good one--one of the best in Alabama.

Try John C. Shader for groceries. Everything nice and fresh.

James Alvey, son of Mr. George Alvey, of Fredericktown, who was attending the State School for the Deaf,

at Danville, fell through an opening in the floor at Dawson's mill last week and was almost instantly killed.

Freshly-caught fish at Carpenter's every Thursday evening.

Don't be afraid you will injure your health by arising with the sun and cultivating an appetite by doing something in the way of beautifying your surroundings—by using the lawn mower that is rusting in some out-of-the-way place, sprinkling where needed, pulling weeds, burning all unsightly rubbish and eliminating the superfluous branches from the shade trees, thereby adding beauty and symmetry to your place of residence.

Try a nice lamb roast from Carpenter's.

Circuit court convenes here next Monday. Both the criminal and civil dockets are light, and there are few cases of interest to be disposed of.

Go to Carpenter's for lamb chops.

Stole a Locomotive.
Williamsburg, Ky., May 12.—Lester Richardson, who stole a locomotive out of the yards at Jellico about a year ago and ran it to Mt. Ash, six miles north, was given two years in the penitentiary here.

Dressel Compromised.
Louisville, Ky., May 11.—Dressel of Covington, Ky., who came here to cause the arrest of James Bagley, alleged by Dressel to have eloped with Mrs. Dressel and a five-year-old child, has returned to his home with the child, leaving Mrs. Dressel and Bagley. The trio reached a compromise.

Freed Brother by Accusing Himself.
Louisville, Ky., May 11.—When the case of Ben Johnson, charged with shooting Orrie May in a fight over a woman, was called in the city court, John Johnson, Ben's brother, arose and avowed that he had done the shooting. As a result Ben was released and John is in jail waiting trial.

Unknown Man Killed.
Covington, Ky., May 11.—An unidentified white man, about 30, who carried in his pocket a book containing the Gospel of St. Paul and a saloonkeeper's card, was run over and instantly killed at Independence, Ky., by a freight train on the L. & N. road.

Was Caught in the Machinery.
Versailles, Ky., May 11.—Andrew Trumbo was caught in the machinery at W. A. Gaines & Co.'s distillery near Millville, this county, and his leg was broken and crushed between the knee and ankle. It is feared that amputation will be necessary.

Is Given Life Sentence.
Covington, Ky., May 11.—Jas. Russell, charged with stabbing his wife to death, was sentenced to serve the remainder of his life in the penitentiary. This ends one of the most remarkable cases ever heard in the Kenton criminal courts.

To Be Buried in Kentucky.
St. Louis, May 11.—The remains of William A. Craig, a once prominent Kentuckian, were shipped to Smith's Grove, Ky., for burial. He served as lieutenant colonel of the Seventh Kentucky cavalry during the civil war.

Farmer Killed by a Train.
Owensboro, Ky., May 11.—James Smith, a well-known farmer, was run down and instantly killed by a local freight train on the Louisville & Nashville railroad, six miles south of here. He was walking along the track.

Sells 22,000 Acres.
Charleston, W. Va., May 11.—A big land deal was consummated here, transferring 22,000 acres of coal and oil lands to a syndicate. The property is situated at North Fork, Ky., and the consideration is \$200,000.

Fatal Freight Wreck.
Louisville, Ky., May 11.—A freight train on the Louisville & Nashville railroad dashed through a switch and into the rear of another freight train at Lebanon Junction. Engineer Jas. Beck was fatally injured.

A Heavy Rainfall.
Lexington, Ky., May 11.—The rainfall in Lexington and vicinity was an inch and a quarter. It was almost a watershed. The growing fields are flooded, injuring crops.

Pistol's Fatal Wound.
Versailles, Ky., May 11.—A pistol fell from the pocket of Clarence Samuel, colored, near Millville, and exploded, killing Mrs. Samuel, his niece.

..Tatham Springs..

A pretty Scene on Chaplin River.

There are hundreds of people in Washington county alone, who suffer agonies from cases of Bright's Disease, Diabetes, Gravel, Rheumatism, Cystitis, Gastric and Intestinal Catarrhs, Jaundice, and every form of Dyspepsia. Tatham Spring water cures these diseases. Write for catalogue of testimonials.

BOARD: Per day, \$2, per week, \$10, per month, \$35.

THE HOTEL at Tatham Springs, Washington County, Ky., is situated on Carey Island, in Chaplin River, at the intersection of Glenn's Creek. The hills surrounding the valley are three hundred ft. high, from the top of which the prospect is varied and sublime. Chaplin river, which is stocked with fine game fish, flows within one hundred feet of the Hotel, at which place it makes a grand circuit of three miles returning within ninety feet, leaving a picturesque ridge, through which a tunnel has been cut, furnishing water for a mill. The Spring is really an artesian well spouting from about one hundred feet below the surface, pouring out its healing waters in sufficient quantities to supply the world. The water is a mild alkaline diuretic, with tonic and alterative properties of the most remarkable character. The analysis will suggest its curative properties, but the many wonderful cures of stomach, kidney and liver diseases by the use of this water, convinces us that nature in her subtle laboratory deep in the earth, has given to it properties which the chemist cannot account for.

Mr. John Williams visited his grandfather, Mr. John Hardesty, Sunday.

Mrs. Eliza Carney visited her mother, Mrs. Sarah Gray, Sunday.

Mrs. Jessie Sale visited Mrs. Lucy Sale here Sunday.

How to Ward Off Old Age.

The most successful way of warding off the approach of old age is to maintain a vigorous digestion. This can be done by eating only food suited to your age and occupation, and when any disorder of the stomach appears take a dose of Chamberlain's Stomach and Liver Tablets to correct it. If you have a weak stomach, or are troubled with indigestion, you will find these Tablets to be just what you need. For sale by C. J. Haydon, druggist.

The Wings of The Morning

By LOUIS TRACY

Copyright, 1905, by Edward J. Clode

They advanced cautiously enough, though dreading a surprise. The chief carried a bright parang in his left

They advanced cautiously,

hand; the others were armed with guns, their swords being thrust through belts. Creeping forward on tiptoe, though their distant companions were making a tremendous noise, they looked at a murderous gang as they peered across the open space, now brilliantly illuminated by the moon.

Jenks had a sudden intuition that the right thing to do now was to shoot the whole party. He dismissed the thought at once. All his preparations were governed by the hope that the pirates might abandon their quest after hours of fruitless search. It would be much wiser, he told himself, to pre-

Lazy Pores.

Laziness is an evil that breeds trouble and disease. Lazy men never look bright, cheerful or healthy, lazy people do not exercise; they do not exert their powers for warding off disease. Hence they become stagnant and useless. In the same way the pores of your skin become clogged and lazy. They lose their activity; they don't perform their regular duties. As a result you have skin troubles, such as dry eczema, itching and burning skin, blackheads, pimples, etc. The pores of your skin need waking up. They are lazy; they need activity. The most effective means of producing the necessary activity is to use freely twice a day the new product, Paracanth. When you apply Paracanth, it immediately opens the pores, penetrates directly to the bottom of the canal, going even into the muscles, drawing out all disease germs, dirt, obstructions and inflammation, by inducing a healthy copious perspiration. It washes out the pores and feeds the interior cells, which furnish the skin with necessary building and healthy and beautiful skin. For this reason, Paracanth is invaluable for the treatment of skin troubles, such as dry eczema, Tetters, rough and scaly skin. It is unequalled for the treatment of Neuralgia, Sore Muscles, and Rheumatism because it creates a normal activity in the pores of the skin, thereby stimulating circulation and thereby removing all congestion. Paracanth is skin tonic, invaluable household remedy—a remedy that every family needs every day in the year. Do not waste your money on cheap salves, ointments, which have had no success. Paracanth, the up-to-date perfect remedy. Sold only in 25c, 50c, and \$1.00 bottles. Guaranteed by all dealers. The Paracanth Co., Louisville, Ky., U. S. A. For sale by C. J. Haydon Springfield.

spot. At last the daring second himself, still wielding his naked sword, strode right up to the very doorway. Stricken with sudden stupor, he gazed at the fifth gleam within, and perceived the cheval de frise with the parang. Here was something definite and solid. Then, he dragged one of the wounded men out into the moonlight.

Again Jenks experienced an itching desire to send a bullet through the Dyak's head. Again he resisted the impulse. And so passed the third and fourth opportunity.

Another vehement harangue by the chief gauded some venturesome spirits into carrying their wounded comrade out of sight, presumably to the hut. Inspired by their leader's fearless example, they even removed the third injured Dyak from the vicinity of the cave, but the celerity of their retreat caused the writer to hawl in agony.

The next undertaking was no sooner appreciated by the sailor than he hurriedly caused Iria to shelter herself beneath the tarpaulin, while he crept close to the floor of the ledge, looking only through the screen of tall grasses. They kindled a fire near the well. Soon its ruddy glare lit up the dark rock with fantastic flickerings and drew scintillations from the weapons and ornaments of the hideously picturesque hosts gathered in its vicinity.

They spoke a language of hard vowels and nasal resonance and ate what he judged to be dry fish, millet and strips of tough pressed meat, which they cooked on small iron skewers stuck among the glowing embers. His heart sank as he counted sixty-one, all told, assembled within forty yards of the ledge. Probably several of them were guarding the boats or prowling about the island. Indeed, events proved that more than eighty men had been ashore in three large sampans, roomy and deck craft, well fitted for piratical excursions up river estuaries or along coasts.

They were mostly bareheaded rascals, wearing Malay hats, loose jackets reaching to the knees and sandals. One man differed essentially from the others. He was habited in the conventional attire of an Indian Mohammedan, and his skin was brown, while the swarthy Dyaks were yellow-brown. The latter thought from the manner in which his turban was tied that he must be a Punjabi Mussulman—very likely an escaped convict from the Andamans.

The most careful scrutiny did not reveal any arms of precision. They all carried muzzle loaders, antiquated flintlocks or guns sufficiently modern to be fitted with apples for percussion caps.

Each Dyak, of course, sported a parang and dagger-like crozier; a few bore spears, and about a dozen shouldered a long straight piece of bamboo. The nature of this implement the writer could not determine at the moment.

In the neighborhood of the fire an animated discussion took place. Though it was easy to see the chief was all paramount, his fellow tribesmen expressed a democratic right of free speech and outspoken opinion.

Fashing eyes and expressive hands were turned toward the cave and hut. Once when the debate grew warm the chief smothered up a burning branch and held it over the blackened shoulders of the fire extinguished by Jenks. He seemed to draw some definite conclusion from an examination of the charcoal, and the argument thereafter proceeded with less emphasis. Whatever it was that he said evidently carried conviction.

Iria, nestling close to the sailor, whispered: "Do you know what he has found out?"

"I can only guess that he can tell by the appearance of the burned wood how long it is since it was extinguished. Clearly they agree with him. 'Don't you know we are still here?'" "Either here or gone within a few hours. In any case they will make a thorough search of the island at day-break."

"Will it be dawn soon?" "Yes. Are you tired?" "A little cramped—that is all."

"Don't think I am foolish. Can you manage to sleep?" "Sleep? With those men so near?" "Yes. We do not know how long they will remain. We must keep up our strength. Sleep, next to food and drink, is a prime necessity."

"If it will please you I will try," she said, with such sweet readiness to obey his slightest wish that the wonder is he did not kiss her then and there. By her previous instruction she knew exactly what to do. She crept quietly back until well ensconced in the niche widened and hollowed for her accommodation. There so secluded, she was from the outer world of horror and peril that the coarse voices beneath only reached her in a murmur. Pulling one end of the tarpaulin over her, she stretched her weary limbs on a litter of twigs and leaves, commended herself and the man she loved to God's keeping and, wondering though it may seem, was soon slumbering peacefully.

The statement may sound passing strange to civilized ears, accustomed only to the routine of daily life and not to danger and wild surroundings. But the sailor was not a hasty doer in the trenches; the sailor who has heard a fierce gale buffeting the walls of his frail ark, who appreciates the reason why weary and surfeited with excitement, would have slept were he certain that the next sunrise would mark her last hour on earth.

Jenks, too, composed himself for a brief rest. He felt assured that there was not the remotest chance of their lofty perch being found out before daybreak, and the first faint streaks of dawn would awaken him.

When the morning breeze swept over the ocean and the stars were beginning to pale before the pink glory of dawn broadcast through the sky by the yet invisible sun, the sailor was aroused by the quiet fluttering of a bird about to settle on the rock, but startled by the sight of him.

His faculties were at once on the alert, though he little realized the danger betokened by the bird's rapid dart into the void. Turning first to peer at Iria, he satisfied himself that she was well asleep. Her lips were slightly parted in a smile. She might be dreaming of summer and England. He noiselessly warned his way to the verge of the rock and looked down through the grass roots.

The Dyaks were already stirring. Some were replenishing the fire, others were drawing water, cooking, eating, smoking long thin stemmed pipes with absurdly small bowls or oiling their knives and weapons with impartial eagerness. The chief yet lay stretched on the sand, but when the first beams of the sun glided the waters a man stooped over the prostrate form and said something that caused some of the sleeping to rise stiffly, supporting himself on his unjured arm. They at once went off together toward Europa point.

"They have found the boat," thought Jenks. "Well, they are welcome to all the information it affords."

The chief gave some order, at which they all lunged sleepily. Cursing them in choice Malay, the chief seized a thick fagot and strode in the direction of the cave. Goaded into activity by his turbulent demeanor, some followed him, and Jenks, unable to see, but listen: anxiously, knew that they were tearing the cheval de frise from its supports. Nevertheless none of the working party entered the excavation. They feared the parched bones that shone by night.

As he had not been able to complete the communicating shaft it was not

possible to believe any stratagem had been planned for his special benefit, an accident might betray him. With the utmost circumspection he rose on all fours and, with comprehensive glances examined trees, plateau and both strips of beach for signs of a lurking foe. He need have no fear. Of all places in the island the Dyaks least imagined the quarry had lain all night within earshot of their encampment.

Jenks slid back down the ledge and gently awakened Iria. She sat up instantly and gazed at him with wondering eyes.

Fearful lest she should forget her surroundings, he placed a warning finger on his lips.

"Oh," she said in a whisper, "are they still here?" He told her what had happened and suggested that they should have something to eat while the coast was clear. Jenks made a very good second binding, for the long vigil of the previous night had made her very hungry, and the two breakfasted right royally on biscuit, cold ham and good water.

In this, the inner section of their refuge, they could be seen only by a bird or by a man standing on the distant rocky shore that formed the southern extremity of the opposite cliff, and the sailor kept a close lookout in that direction.

It was about to throw the remains of the feast into an empty oil tin provided for refuse when Jenks restrained her.

"No," he said smilingly. "Scraps should be the first course next time. We must not waste an atom of food."

"How thoughtless of me!" she exclaimed. "Please tell me you think they will go away today."

But the sailor flung himself flat on the ledge and grasped a rifle.

"Be still, on your left," he said. "Squeeze into your corner. There is a Dyak on the opposite cliff."

True enough, a man had climbed to that unsightly place, rocky table and was shouting something to a confederate high on the cliff over their heads. As yet Jenks had not seen them nor even noticed the place where they were concealed. The sailor imagined from the Dyak's gestures that he was communicating the uselessness of further search on the western part of the island.

When the conversation ceased he heard a loud voiced savage would descend. But not the scout looked into the valley, at the well, the house, the cave. Still he did not see the ledge. At that unlucky moment three birds, driven from the trees on crest by the passage of the Dyaks, flew down the face of the cliff and began a circling quest for some safe perch on which to alight.

Jenks swore with an emphasis not the less earnest because it was mute and took steady aim at the Dyak's latest exploit. The birds duttered about in ever smaller circles. Then one of them dropped easily on to the lip of the rock. Instantly his bright eyes encountered those of the man, who he darted off with a scream that brought his mates after him.

Dyak evidently noted the behavior of the birds—his only lure was the reading of such signs—and gazed intently at the ledge. Jenks he could not distinguish behind the screen of grass. He might perhaps see some portion of the tarpaulin covering the stores, but at the distance it must resemble a weathered batten segment of the cliff. Yet something puzzled him. After a steady scrutiny he turned and yelled to others on the beach.

The crucial moment had arrived. Jenks pressed the trigger, and the Dyak hurtled through the air, falling headlong out of sight.

Your Life Current.

The power that gives you life and motion is the nerve force, or nerve fluid, located in the nerve cells of the brain, and sent out through the nerves to the various organs.

If you are tired, nervous, irritable, cannot sleep; have headache, feel stuffy, dull and melancholy, or have neuralgia, rheumatism, backache, periodical pains, indigestion, dyspepsia, stomach trouble, or the kidneys and liver are inactive, your life-current is weak.

Power-producing fuel is needed; something to increase nerve energy—strengthen the nerve force, the nerves produce nerve fluid, and restores vitality.

Dr. Miles' Restorative Nerve is the fuel you need. It feeds the nerves, produces nerve force, and restores vitality.

When I was taking Dr. Miles' Restorative Nerve and Anti-Pain Balm, I was convinced that I had severe nervous spells, the result of two years' illness with malaria. My circulation was poor. I would become weak and almost helpless. My circulation was poor. I would become weak and almost helpless. My circulation was poor. I would become weak and almost helpless.

Dr. Miles' Restorative Nerve is sold by your druggist, or you can order it from the first bottle will benefit. If it fails, he will refund the money.

MOOREVILLE.

Mr. A. C. Yates left last Monday for Louisville, where he was summoned to serve on the petit jury of the Federal Court.

The postoffice has been re-established at this place, and we hope to see it in operation by June 1. Mr. Sam Yocum has been appointed postmaster and has given bond and sent it to Washington for approval.

We have had a splendid tobacco season and tobacco growers have taken advantage of it. A large acreage has been set.

Wm. Edleman and wife, of Maple Hill, visited A. W. Edleman at Butler last Sunday.

Aunt Nancy Hendricks, eighty years of age, who lives at Rockbridge, visited relatives here last week.

Mrs. Ed. Yocum undertook to burn the chigoes out of her hen house last Monday. She succeeded admirably, having burned the house and all its contents. Fortunately there was no fire, or the dwelling may have been burned.

The flames created a great deal of excitement in our village.

Jas. Reddicks lost a valuable milch cow last week.

There will be several new tobacco barns built here this season. Mr. A. W. Edleman has one about completed.

Miss Josie Settle was called to Spencer county last Saturday by the illness of a niece.

Sam Offutt, son of H. C. Offutt, and Wm. Marks, son of the late Reuben Marks, have enlisted in the U. S. Navy, and have been assigned to duty at Pensacola, Fla.

A holo passing through our village last Monday stopped at the home of Mr. Jeff Smith, and badly frightened Miss Maggie Smith, who was alone in house. These tramps should be taught to keep in the middle of the road.

Mr. Shelly Cramer and wife gave the young folks a social last Saturday night in honor of Miss Chatsey Collins. Those present were: Misses Nancy Moore, Lerna and Cassie Yancey, Lelia Andie Wall, Nancy Ellis, Margaret Lyddane and Messrs. Bessal Cull, Sam Sweeney, John Ellis, Ezekiah Cutsinger, Albert and Barnett Wall, Mr. Lewton, of Spencer county, and Otis Settle, Clyde and Ernest Gostley, Rucker Lynch, of Valley Hill.

Misses Lera and Cassie Yancey, of Midway, visited Miss Andie Wall last Sunday.

A Good Suggestion.

Mr. C. B. Wainwright, of Lemon City, Fla., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and jaundice by taking it in water as a drink than by taking it in water as a drink. "It seems to get at the right spot instantly," he says. For sale by C. J. Haydon, druggist.

"Cap'n" John Shaw had strong objections to what he called "the new minister's high talk." Since his settlement over the Clanton parish Cap'n John had been heard to say that "church was for them that needed it," and his conduct seemed to imply that he was not of that number.

Cap'n John's own language was of a primitive and unadorned variety, and nothing pleased him more than a chance to translate the minister's remarks to Cap'n Wilson Peeg, the best Clanton story teller. Cap'n Peeg was deaf, and the minister's voice of ten failed to reach him.

One night at a neighborhood gathering Cap'n Peeg in the course of a vivid narrative had referred to "the big fire."

"Was it the consensus of opinion," said the minister in a mild and instructive tone, "that the conflagration was the result of some accident or the work of an incendiary?"

"Hay," said Cap'n Peeg, staring dully at the minister and then turning to his faithful friend for light.

"What he wants to know," called Cap'n Shaw in his shrill tone, "is whether the big fire was set or ketch-ed!"—Youth's Companion.

"Pangborn is always making those classical allusions. What did he mean by saying that even Homer nods?"

"Eh? Oh, yes? You see, Homer was blind, and so they never could tell when he was asleep until he nodded. All those classical things are simple enough when you understand 'em!"—Cleveland Plain Dealer.

"HOWS."

Worth Remembering.

How They May Successfully Be Made at Home.

When you are in doubt what to have for luncheon or for a late supper to which you have invited friends, surprise them with some dainty club sandwiches, says the New York Globe and Commercial Advertiser. Many persons think this kind of food, made at home, but with a little pains and with the right sort of bread, a homemade sandwich is quite as good as that made by an experienced hotel chef.

You must have freshly made and very light wheat bread, cold boiled ham, cold turkey or chicken and some crisp lettuce. These are the materials required. Some persons use bacon instead of ham, but ham is much the better of the two. Cut thin slices from the breast of the turkey or chicken and lay them on a plate ready for use. Get the lettuce leaves ready for use and lay them on a plate near at hand. Cut the bread into thin slices from the loaf and as are required and lay them on the board to keep them hot and at the same time soft and fresh.

Cut the bread in thin slices, first carefully removing the crust from the entire loaf. You must have a very sharp, thin bread knife, and the bread quickly a delicate brown and put it where it will keep hot, but not get dry, while you broil the ham. This must be done quickly, and as soon as it is done begin to put the sandwiches together.

Dip one side of toast in a little melted butter, lay it on a platter, on the slice of toast lay a crisp leaf of lettuce, on the lettuce lay a slice of the broiled ham, then a slice of the turkey or chicken, season this with salt and pepper, then lay on a lettuce leaf and, last of all, another slice of toast.

Press the whole firmly with the hand and pack it then cut the sandwich across in triangular shape and serve with a mayonnaise in a separate dish, or, while making the sandwich, spread mayonnaise on the lettuce leaves.

If possible, one should have an assistant in making club sandwiches, as they must be made as quickly as possible in order to keep them hot and at the same time soft and fresh.

How to Clean Gold Frames.

To clean gold picture frames beat the white of an egg. Add to it one point of cold water and moisten your frames with this mixture, then wipe. Then with a soft flannel carefully wipe. Take a second cloth, perfectly dry, and give the frames a light rubbing. If the frames are not clean and bright after this treatment you would better take them to a glider and have them regilded.

How to Keep Household Accounts.

Keeping accounts may be a little tedious, but it is quite worth while. Have just one book, rather than a dozen, and write down your allowance on the left hand page and on the right put down what you have paid the butcher, baker, etc., everything even to a postage stamp. Then once a week or oftener balance. Balancing is nothing harder than subtracting the total of the money you have spent from what you had in hand. The difference is what you should have in cash. When you have been keeping accounts for some time you will realize as you never did before what your money goes for. Keeping accounts is not helping you to make money, but it does help you to find out how to get the most for your outlay and how to balance your needs with your income.

How to Make Caramel Ice Cream.

Prepare your caramel by putting in to a small pan eight tablespoonfuls of granulated sugar and cooking it, stirring until it turns to a dark brown. Make a custard of a pint of milk, three eggs, and sugar to sweeten abundantly. Take from the fire and set away to cool; then add the just prepared caramel and a quart of cream. Flavor with vanilla and freeze.

How to Make Omelets Light.

An omelet would often be served if there were not the general experience that it is apt to fall and be heavy, says Harper's Bazar. This danger may be entirely obviated if the eggs are beaten separately and very light, the yolks folded daintily into the whites, salt and pepper added and the whole transferred to a pan where the butter is already heated sufficiently. The omelet may be doubled into half its dimensions and sent to the table, a puff of lightness, all in a moment's time, or course it could be "fried and wait" or it will hardly be like those who "also serve" in Milton's famous sonnet.

How to Remove Moles.

Here is a safe remedy to apply to the mole: Dissolve in water a few drops of tartar emetic, one dram; eryon oil, five drops. The plaster should be spread the precise size of the mole. It should be left on until the mole separates, then removed and allowed to heal.

How to Remove Grease From Silk.

To remove grease from silk use chloroform and a cotton cloth, flushing with a dry cloth. Benzoin can also be used as well as French chalk. In using chalk place a hot iron over the spot until the grease is removed. Benzoin or turpentine be used to remove grease from clothing in general by first thoroughly saturating the cloth at and around the spot and then placing soft blotting paper beneath and on each side of the grease and pressing it. The fat is thus dissolved and absorbed by the paper.

Man's Unreasonableness.

is often as great as woman's. But Thomas S. Austin, manager of the "Republican," of Leavenworth, Ind., was not unreasonable when he refused to allow the doctor to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed. After five physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured and can now perform all her household duties." Guaranteed by C. J. Haydon, druggist. Price, 50c.

CREAMERY WINDOR.

A creamery plant costing the farmers of a western community \$4,500 four years ago was sold the past winter for \$800. This is an old story and a common experience. This creamery was built before the dairying habit had been developed among the farmers, built before the cows to support it were in sight. The town men took hold and helped, and some grafters from Chicago to help them the enterprise and the creamery was built. The creamery was built at \$4,500 which at the outside should not have cost over \$2,200. Poor judgment was used in the selection of the site and in the matter of feeding and caring for the cows. The patrons could not make it pay to sell cream, soon got tired of milking and went back to selling corn and oats and they had done for forty years. The next step was a forced sale of the plant. The condition of a co-operative enterprise which had been properly managed, could have been of almost incalculable good to the community. This kind of agricultural tragedies can be found all over the country. The moral is that men should get cows and learn how to properly select, feed and care for them, and there should be at least 1,000 cows in sight before a dollar is put into the plant. A creamery man should be consulted as to the plant.

early career:

One of the most important incidents of his early career was his marriage, March 21, 1867, to Miss Elizabeth Penitton Barbour, daughter of Colonel Ambrose Barbour, of Washington county, Colonel Barbour was a wealthy farmer, who had emigrated from Virginia some years before, and was connected by blood with the distinguished family of that State bearing his name. He was a brother of Thomas Barbour, whose sons, Philip P. and James, attained the highest civic honors. Philip P. Barbour was Speaker of the Lower House of Congress and Associate Justice of the Supreme Court, while James was Governor of Virginia, United States Senator, and Minister to the Court of St. James. The bells of all the country around was the beautiful daughter of Colonel Barbour, known to her intimate friends and admirers as Betsy Barbour, the abbreviation common to the name Elizabeth in those days. Among the crowd of suitors who laid their heads off, he would never in future wear ruffles, and gradually fell into indifference in regard to his dress."

handsonly, with lace ruffles on his shirt bosom and at his wrists, falling over small, white hands, he was no uncommon suitor.

Said his wife in after years: "He was very fastidious in his dress in those days, and continued so until after our marriage, when one day he sat busily writing, the ruffle at his wrist dabbed in the ink and on his paper—so much in his annoyance that he impatiently tore it off. He would never in future wear ruffles, and gradually fell into indifference in regard to his dress."
